

FINAL TASK LIST (BASED ON CURRENT WEBSITE)

1. HOMEPAGE (MODIFY EXISTING)

1. Hero Section (Update content + visuals)

Task:

- Replace current text-heavy hero with:
 - Background video OR product image (for now keep the 3d Heart and the existing video)
- Keep layout, update content

Update Content:

- Heading →
“Master Anatomy with 3D + AI Learning”
- Subheading →
“Visualize, understand, and revise faster with 3D models, AI tools, and structured content.”
- Buttons:
 - Start Learning Now

2. “Our Process” Section (DO NOT redesign, just update text)

Keep same UI, change content:

Change the title to “How It Works”

1. **Choose Your Plan**
 2. **Get Instant Access**
 3. **Start Learning with AI + 3D**
-

3. Product Highlight Section (Modify / Add below hero)

Task:

- Add or improve section showing 4 offerings

Content:

- 3D Software → “Explore anatomy in realistic 3D”
 - AI Study Assistant → “Convert notes into summaries, flashcards & MCQs”
 - Smart Workbooks → “Structured, exam-focused learning”
 - Video Lectures → “Clear, simplified explanations”
-

4. Demo / Visual Section (Add if missing)

Task:

- Add:
 - screenshots OR
 - video

Content idea:

- “See how Supernova works”
-

5. About Section (Shorten existing)

Replace long paragraph with:

“Supernova Academy helps medical students learn anatomy faster using AR-based visualization, AI tools, and structured study content.”

Keep the 3D brain model as it is

6. Testimonials Section

Task:

- If exists → clean design
-

7. Remove / Fix

- Remove all “Loading...” text
 - Fix spacing issues
 - Align sections properly
-
-

2. AI STUDY ASSISTANT PAGE (MODIFY)

1. Hero Section

Update content only:

Title:

AI Study Assistant

Subtitle:

“Upload your notes and instantly generate summaries, flashcards, and practice questions.”

2. Feature Blocks (Keep structure, improve text)

Update each feature:

- Smart summaries →
“Get concise, exam-focused explanations instantly”
 - Mind maps →
“Visualize concepts and understand relationships”
 - Chat with document →
“Ask questions directly from your notes”
 - Q&A generation →
“Generate practice questions with answers”
 - Flashcards →
“Revise faster using active recall”
-

3. Add CTA Button

- “Open AI Tool” (link to subdomain)
-
-

3. 3D SOFTWARE PAGE (MODIFY)

1. Hero Content Update

Title:

3D Anatomy & Physiology Software

Subtitle:

“Explore anatomy like in a real dissection lab with ultra-realistic 3D models.”

2. Features Section (Clean formatting)

Convert into bullet cards:

- Real cadaver-based models
 - Works offline
 - 6000+ structures
 - Male & female models
 - Overlay systems
 - Rotate, zoom, explore
-

3. Add Visual Section

- Add screenshots (important)
-
-

4. SMART WORKBOOKS PAGE (MODIFY)

1. Content Cleanup

- Keep structure
 - Improve readability (spacing, headings)
-

2. Features Section (simplify text)

Use:

- Region-wise organization
- Easy explanations

- Clinical correlations
 - Mnemonics and tables
 - Diagram-based learning
-

3. Module Table

Task:

- Keep existing table
 - Improve styling (spacing, alignment, be thoughtful and creative with the UI)
-

4. Progress Section

- Keep static progress bars (or circular dot like visual, like the current one)
 - Improve visual styling
-
-

5. VIDEO LECTURES PAGE (MODIFY)

1. Hero Update

Title:

Simplified Video Lectures

Subtitle:

“Short, focused videos designed for better understanding and revision.”

2. Features Section

- Short and focused videos
 - Region-wise organization
 - Clinical relevance
 - Visual explanations
-

3. Video Section

Task:

- Embed videos properly (not just text)
-

4. Module Table

- Same cleanup as workbook page
-
-

6. PRICING PAGE (MODIFY ONLY)

Tasks:

1. Highlight “Standard” plan as:
→ Most Popular
2. Improve spacing and alignment
3. Ensure:
 - All features are readable
 - No clutter
4. Make CTA buttons more visible

7. LMS (CONTENT ACCESS – ADD)

Create Page: “My Learning”

The details of the LMS page is given in a separate document.

8. GLOBAL UI FIXES

Tasks:

- Remove “Loading...” everywhere
- Fix inconsistent spacing
- Add icons where missing
- Standardize buttons
- Ensure mobile responsiveness
